

Innoviti Develops High Performance Battery Solution for Gemalto Magic5100V2 Terminals

Bangalore, Oct 2007: Innoviti Embedded Solutions, a leading provider of transaction processing solutions today announced the introduction of a high performance battery solution for Gemalto Magic5100V2 range of terminals.

Named UltraPower, this product provides a high performance Li-Ion battery for the Magic5100V2 terminals, thereby addressing the high backup requirements of customers of this terminal. The product can be retrofitted into existing deployed Magic5100V2 terminals.

Using UltraPower, the battery life can be extended to about 80 to 100 transactions, almost double of what is possible using the existing battery provided in these terminals. Moreover, the UltraPower module allows the system to work even if the battery is fully discharged.

About Innoviti

Innoviti Embedded Solutions is a leading provider of transaction processing solutions for various verticals such as financial inclusion, payment, presence monitoring and loyalty. It has won several awards for its products, including the Best Consumer Electronics Product Award, Red Herring 100 Asia Award and Wireless Innovation Contest Award.
